

# SILVERBELL ROAD, GORET ROAD TO GRANT ROAD

## Open House Comments – June 16, 2014

### COMMENT 1:

- Lots of wildflowers, please!
- I like the plans though I am worried about what the local graffiti taggers will do to the ‘sedimentary rock’ walls.
- I also hope that traffic will be managed well during the construction period so the congestion is held to a minimum.

### COMMENT 2:

- I am still concerned about continuity of design throughout the corridor (art).

### COMMENT 3:

- Love the art!

### COMMENT 4:

- Thank you for keeping us informed of the progress.
- Meanwhile, Silverbell North of Goret is in need of ongoing maintenance. Several potholes, poor rutted road exists. I realize that this project is aimed at improving the roadway, however, the timeline to completion is lengthy.
- The consideration of public art is great! Keep up the good work.

### COMMENT 5:

- We really like the design and artwork and encourage continuity with the phase of work that will continue from Goret to El Camino del Cerro. Any help we can provide in that regard we’ll do.
